## Editor's Ramblings:

I hope your trip to the MaPaca Jubilee 2002 was as wonderful as ours. My husband Fred and I and our daughter Breanne had a great time showing our one little alpaca Joya, who managed to come through the experience unscathed. Of course, she wasn't too happy about her new hairdo, that she received from Mark Loffhagen from Colorado (originally New Zealand). Not that Mark didn't do a good job, in actuality the shear job was fantastic! Thanks Mark! Joya just had a hard time parting with her 7" staple length (one year's growth) fiber.

I wonder if it takes everyone two weeks to unpack after Jubilee like it has taken me! Well, I think I'm pretty well all unpacked. It was definitely worth all the effort getting to Jubilee and we are tickled with our three ribbons!

Above all else though, the best part about Jubilee was getting to meet so many Mapco members. There were 230 breeders represented at Jubilee, amounting to about 630 people including helpers, with 1400 alpacas filling 605 stalls. Referred to as the largest alpaca show in the world to date, Jubilee was quit an event!

I had some funny experiences meeting people at the show. One

breeder, Betsy Gove from Maryland, was taking a quiet moment sitting in front of her pen reading her April MaPaca Newsletter as I walked by. As I did I said, "Hi!" and Betsy looked up, then back down, then up again as she said, "OH! Alice Brown!" I guess she saw my name tag! Another person meet my husband Fred and while looking as his name tag, which said "Fred Brown," proceeded to say, "OH! Alice Brown!" Poor Fred, now people are calling him Alice Brown too! All kidding aside, it was great to meet so many nice people who love alpacas too.

I know there were others that I wanted to meet, that I missed. I'm sorry. Between showing and interviewing and picture taking, I did meet many people, but not everyone. For those I missed, you will just have to come to the next quarterly MaPaca meeting so we can meet. I spoke to quit a few people and have much more to share with the membership, so look for more Jubilee stories coming up in future MaPaca Newsletters.

Spring time is enveloping our farm. The grass is sprouting and growing in the pastures, the pregnant females (all two of them!) look ripe and ready to burst, the wild roses are filling the air with the sweetest warm perfume in existence, and the beautiful barn swallows picked our barn for making their nest for the year. Does it get any better than this? I don't think so. Life is a daily joy around here. Not that there aren't the occasional worries, but the worries seem to be temporary, short-lived, and soon forgotten amidst the joys of raising alpacas.

It is definitely hard work taking care of a farm and we alpaca people are busiest this time of year. It seems it can be quit easy to get caught up in the flow of business and forget to take some time to stop and reflect and enjoy all that is around us. I try every day, no matter how busy I am, to catch myself and tell myself to slow down for a bit. I just stop what I'm doing, take some deep breaths and look around and think how fortunate I am to have this opportunity to be alive today amidst all this beauty. Today it is the wild roses that are blooming, and in a few days as they fade out, the honeysuckle stand poised to blossom and fill the air again with their 'almost summer' scent. I stand still and watch one of the girls peacefully chewing her cud as baby kicks away inside. Perhaps baby is thinking that it would much rather be outside playing today. Well, maybe tomorrow, mom says. Yes, maybe tomorrow will be the big day! Enjoy!

Sincerely, Alice Brown
